[Virtual Issue No.2]

The paths and modes of developing the tourism economy

Editorial Comment

With the rapid development of the tourism economy, it has become one of the strongest and most potential economic growth points. The rapid development of the tourism economy is closely related to its unique concept of innovative development of tourism resources. This virtual issue collection summarizes the recently published papers, to provide references for promoting the development of the regional tourism economy.

Analysis of the path and mode of tourism resources innovation in Japan

Miyuki Yanagi

Geographical Research Bulletin, 2022, 1, 2-13. DOI: https://doi.org/10.50908/grb.1.0_2

Cause analysis of the development of Japan's tourism industry based on the push-pull theory

Xiaozheng Liu

Geographical Research Bulletin, 2023, 2, 2-21. DOI: https://doi.org/10.50908/grb.2.0_2

Analysis of the development path and model for Japanese characteristic agriculture

Chunyu Cao

Geographical Research Bulletin, 2022, 1, 85-92. DOI: https://doi.org/10.50908/grb.1.0_85

Classification and regional distribution characteristics of tourism resources in Japan

Miyuki Yanagi

Resources Data Journal, 2022, 1, 24-30. DOI: https://doi.org/10.50908/rdj.1.0_24

Tourism resources and their characteristics in Shandong Province

Lv Fan

Resources Data Journal, 2022, 1, 31-37. DOI: https://doi.org/10.50908/rdj.1.0_31

Tourism: Economic development

Wen Lu

Geographical Research Bulletin, 2022, 1, 95-96. DOI: https://doi.org/10.50908/grb.1.0_95
